SUMMARY

Detail-oriented **Frontend Developer** with **1+ year of professional experience** in building high-performance, scalable web applications using **React.js** and **Next.js**. Proven expertise in developing **Headless E-commerce** solutions and **AI-driven interfaces** with a focus on **SEO optimization** and **Core Web Vitals**. Skilled in modern state management, efficient data fetching, and deploying containerized applications.

SKILLS

Frontend: Next.js (App/Pages Router), React.js, Tailwind CSS, JavaScript (ES6+), HTML5, CSS3
State Management & Data Fetching: TanStack Query (React Query), Zustand, Context API, Axios
Web Concepts: JWT Authentication, REST API Integration, Pagination, Virtualization, Markdown Rendering, Responsive Design, Component-Based Architecture
Tools & DevOps: Docker, Git/GitHub, Oracle Cloud (OCI), Linux Server Administration, Postman, Shopify Storefront API

PROFESSIONAL EXPERIENCE

Frontend Developer August 2025 – Sep 2026
GenZChat Labs Pvt.ltd Hybrid / Uttarakhand

- Developed and scaled a production-grade **Headless E-commerce storefront** using **Next.js** and **Shopify Storefront API**, improving page load speeds by 40% through **SSR** and **ISR** strategies.
- Implemented **TanStack Query** for efficient server-state management, including **caching**, **error handling**, and **optimized data synchronization**.
- Engineered complex **AI-driven chat interfaces** and financial dashboards, utilizing **Zustand** and **Context API** for lightweight and predictable state management.
- Integrated secure **JWT Authentication** workflows (Login/Signup) and built protected route systems for multi-user environments.
- Developed advanced UI features including **infinite scrolling**, **custom pagination**, and **list virtualization** to render large datasets with minimal performance lag.
- Integrated **Markdown rendering** support for dynamic content displays, ensuring seamless conversion of structured data into accessible web components.
- Orchestrated the containerization of frontend services using **Docker** and managed deployments on **Oracle Cloud (OCI)**, ensuring zero-downtime updates.
- Optimized deployment environments by configuring **Linux Swap Memory** (5GB) to manage resource-heavy builds on cloud instances.

TECHNICAL PROJECTS SUMMARY

- Headless E-commerce Migration:** Converted traditional storefronts into high-performance Next.js apps, focusing on **SEO scores (Lighthouse 90+)** and mobile-first responsiveness.
- Financial AI Dashboards:** Built interactive data visualization tools with real-time API polling and secure user sessions via **REST APIs**.
- Full-Stack Deployment:** Managed end-to-end deployment pipelines including Dockerizing applications and configuring reverse proxies for production stability.

EDUCATION

Uttarakhand Technical University Expected Graduation: 2029
Bachelor of Technology (B.Tech) in Computer Science & Engineering *Roorkee, India*

Government Polytechnic Dwarahat Graduated: 2025
Diploma in Computer Science Engineering *Uttarakhand, India*

LEADERSHIP & ACHIEVEMENTS

- Technical Delivery:** Successfully launched and maintained **2 production applications** across E-commerce and Fintech sectors within the first year of the career.
- Competitive Excellence:** Won **2nd Place** in University-Level Debate, demonstrating strong analytical and communication skills.

HOBBIES

Poetry Writing, Exploring Modern Frontend Frameworks, Creative Documentation.
